About

A front-end web developer, passionate about the computer science field. A long self-learning journey led me to this spot, where I have accomplished many appraised website projects.

Work Experience

ReactJs Developer

Jan 2022 – July 2022

Rowaad

Responsibilities:

1. Meeting with the development team to discuss user interface ideas and applications.
2. Reviewing application requirements and interface designs.
3. Identifying web-based user interactions.
4. Developing and implementing highly responsive user interface components using react concepts.
5. Writing application interface codes using JavaScript following react.js workflows.
6. Troubleshooting interface software and debugging application codes.
7. Developing and implementing front-end architecture to support user interface concepts.
8. Monitoring and improving front-end performance.
9. Documenting application changes and developing updates.

Frontend Developer (Internship)

April 2021 – July 2021

Eraasoft

Responsibilities:

1. Implement visual and interactive elements that users engage with through their web browser when using a web application.
2. Building reusable code for future use.
3. Ensuring web design is optimized for smartphones.
